Academic Projects

ONLINE FOOD ORDERING WEBSITE

Tools: VS Code, Oracle Database, Tomcat Server & XAMPP

Desc: An online food ordering system is a digital platform that allows customers to order food from restaurants online.

The system typically has two parts: a website for customers to order, and an admin interface for the restaurant to receive orders.

PAYROLL MANAGEMENT SYSTEM

Tools: Eclipse IDE, Web Browser, Tomcat Server & Oracle Database

Desc: Payroll management is the administration of a company's employees' financial records, including their wages, bonuses, deductions, and other vital financial records.
